

**Puget Sound Technical Recovery Team**  
**First meeting: April 14, 2000**  
**Draft Agenda**

- 9:00 am      Introductions and welcoming remarks (**RW, UV, WS?**)
- 9:30          Overview and discussion of TRT charge, Phase I and Phase II distinction, specific technical end products, timetable (**RW**)  
                 --policy considerations  
                 --coordination with other entities is critical
- 10:00        Discussion and approval of charter describing TRT mechanics—structure of TRT, nature of meetings, subcommittees, communication, etc. (**MR**)  
                 --internal and external communication—points of contact  
                 --everyone contributes—chair of subcommittee  
                 --data needs, sharing, acquisition  
                 --PUBLISH!
- 10:30        **BREAK**
- 11:00        Overview and discussion of comanager efforts to produce interim recovery goals (**WDFW & NWIFC**)
- 12:00 pm    **LUNCH**
- 1:00          Necessary components of delisting goals: overview of VSP and preliminary results from analyses for identifying populations (**MR**)
- 1:30          Outline plan for producing technical end products—what is needed, who will take the lead for each, timetables, schedule next few steps (**group**)  
                 1. ID pops  
                 2. VSP criteria for each pop.  
                 3. ESU-level: how many and which pops  
                 4. Habitat-fish linkages  
                 5. Monitoring requirements—how do we know if recovery has been achieved, or progress towards it is not being appreciably hindered?  
                 6. Local watersheds--guidance  
                        --existing documents, analyses for each  
                        --identify tentative working groups/subcommittees for each  
                 7. Factors for decline—ID, plan for reversing/limiting effects
- 4:00        **ADJOURN**

Background reading for the TRT before the first meeting:

- \*recovery planning document
- \*TRT work plan
- \*TRT draft charter
- \*VSP draft paper
- \*QAR draft document
- \*written description of population identification analyses, preliminary results
